TOP VIEW

Scale 1:100; looking down (along -Z)

FRONT VIEW

Scale 1:100; looking at the front (along +Y)

ISOMETRIC VIEW

Not to scale; span shortened to 7 m; seen from the front right and above, about 30 deg elevation

LAYOUT RULES (MM)

Design span 30,000 between sheave centres; stretch 50,000 (R2)
Post at least 6,000 back from the water's edge (R11)
The fisher works within 1,000 of the post, never nearer the water
Loop legs 112 apart, floating; the net is set along the -Y leg
Net no longer than the span less 2,000, so no ring reaches a block
Loop direction within the stays' splay (22 deg either side)
Clearing table landward on the +Y side, clear of the stays
Far stake set from a boat or at low water, never by wading
Nobody in the bight of the loop or in line with a loaded stay
Third-angle; front view from -Y; X along the loop
