Scale 1:20; looking at the right side (along -X)

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Bridle 1,500 of 6 mm cord; bowline to the net's head and foot ropes
Weak link: one loop of the chosen cord, 80 long, joining hook and bridle
Choose the cord by pulling three samples: each must release at 500 to 700 N
Snap hook clips to a swivel ring (far end) or the tie-off hole (near end)
Make two; mark the weak link cord with paint so it is never swapped
Check: the hook opens with one hand and snaps shut by itself

BANKHAUL
