

REV	DESCRIPTION	DATE	BY
P1	Making sketch for the prototype build plan	2026-10-03	AC

HOW TO MAKE IT AND HOW IT FITS

Tube 3,850 long; overall 4,000 with the point (vane under 10 kPa: tube 4,850, overall 5,000, BKH-DDR-003)

Point: four 4 mm plate triangles welded to a cone, 150 long

Cap disc 76 dia x 6 welded on the top; it takes every blow

Five 12.5 cross holes at 200 pitch, the top one 712 below the cap

Drill the holes square through both walls on one line

Paint ring 2,500 above the point (3,500 on the long stake): drive to it

Paint after drilling; leave the bore open to drain

Check: straight within 10 over the length; the pin slides through every hole

BANKHAUL

Far stake: making sketch

DRAWING NO.
BKH-DWG-102

SCALE
1:50

MATERIAL / NOTES
76.1 x 3.6 tube, S355; 4 mm plate; 6 mm plate; zinc-rich paint
